

ROMANOV DMITRIY

FULL-STACK QA ENGINEER

Over 3 years of experience in e-procurement testing, I have expertise in manual testing and automation of UI, API, as well as configuring processes in CI/CD. I enjoy watching testing conference videos. I am eager and ready to gain new experiences and knowledge.

WORK EXPERIENCE

1 Roseltorg / Nov 2019 – Aug 2023

Full-stack QA Engineer

Reviewed product requirement documents and functional specifications. Conducted functional testing of the web-application for B2B and B2C in the e-procurement industry. Implemented and maintained manual and automated E2E and integration tests. Demonstrated teamwork by promoting ideas, helping other team members grow their skills.

2 Information Technology Center of the Chuvash Republic / Nov 2018 – Nov 2019

System Engineer

Provided the operation of telecommunications and computer equipment for the executive authorities and local self-government of the Chuvash Republic.
